Four Bullet Wounds Found on Remains of Sixteen Year Old Lad at Portland, Conn.

## HIS 19 YEAR OLD BROTHER HAS DISAPPEARED

Father Says the Boys Have Had Frequent Quarrels-Revolver of Missing Brother is Also Gone-A Warrant to Be Issued For the Latter-Murdered Youth Found by Schoolboy Friends Who Were Searching For Him.

Portland, Conn., Jan. 12.—The body of 16 year old Gustaf Edwin Sjogren, who disappeared from his home in Marlborough street last Wednesday night under mysterious circumstances, was found this morning in a pasture, completely covered with thirty or more large stones. Four bullet wounds were upon the body. Two bullets, apparently from a .33 calibre revolver, had passed through the heart; the third had penetrated the liver and the fourth had gone through the mouth.

The discovery was made by John Smith, aged 14, and John Cronin, aged 18, two schoolboy friends of the murdered boy, who were members of a large party engaged in searching 'he neighborhood for traces of the missing youth. The pasture was used as a dumping ground for brownstone from the quarries. When Smith and Cronin were going over the pasture about 10.30 o'clock this merning their attention was attracted by the peculiar shape of the pile of stones. Closer investigation showed a boy's foot sticking out from under the stones. Dr. C. A. Sears, the medical examiner, was notified and permission was given for the removal of the body to the rooms of a local undertaker.

This afternoon Dr. Sears, assisted by Dr. James T. Mitchell of Middletown, performed an autopsy. In their opinion, death was probably instantaneous from either of the two bullets through the heart. Dr. Sears said that, from the position of the bullets, the boy had probably been shot while lying down. None of the bullets have so far been found.

The boy's brother, Joseph, aged 19, has been missing from home since last Thursday morning, and the police and county authorities are making a search for him. He was last seen about noon Thursday, when a friend recognized Boy's Brother Missing.

Figure That They Can Capture Fortress in Four Days With Loss of 5000 Men-Impatient Over Turks' Delay

London, Jan. 12.—The British eecretary of state for foreign affairs, Sir Edward Grey, and the ambassadors of the powers have made representations to Rechad Pasha regarding the projected departure of the Turkish delegates which is equivalent to a definite rupture of the peace negotiations. Turkey is considered responsible for the suspension of the work of the conference which was decreed by the allies, not only without asking his opinion, but without even allowing him to express it when he begged to do so.

Rechad to Telegraph Again.

Rechad to Telegraph Again. Rechad to Telegraph Again.

He had waited a week, hoping that a reflection would bring the allies to more reasonable views, but as no move had been made on their part in this direction and no desire had been manifested to hear what further rectification of the frontier Turkey was prepared to indicate—naturally without ceding Adrianople—the Turkish plenipotentiaries could not remain in London indefinitely. In deference to England which had treated them so hospitably and out of regard for the other powers whose ambassadors regretted lowers whose ambassadors regretted the rupture negotiations, Rechad Pasha consented to telegraph to Constanti-nople asking for definite instructions.

Allies Losing Patience. Allies Losing Patience.

The allies also are tired of waiting. They do not believe that the note which the powers will present at Constantinople will have the desired effect but, not wishing to take a decisive step without due notice to Europe, they have notified Sir Edward Grey and the ambassadors of their Intention to renounce the armistice contemporaneously with, or shortly after the presentation of the note to the Porte.

The allies will be ready to resume the war four days later. In fact, it is remarked that Greece has never ceased hostilities; that Servia has nothing more to conquer, while, with respect to Montenegro the armistice has never been observed by Turkey, whose soldiers have made frequent sortles from Scutard. Therefore, the resumption of hostilities really concerns only the Thracean field of operations where the activity of the allies seems to be Ilmactivity of the allies seems to be limited to the conquest of Adrianople. The Balkan military experts here think that under present conditions Adrianople can be taken in a few days by the sacrifice of five thousand men.
